

ECC 800 MHz Radio Tower (Bio Science) Generator Replacement

- The current generator is nearing end-of-life and will require replacement
- Located on the roof-top of the UofM Bio-Science building
- Powers the radio microwaves, antennas, HVAC and all the radio equipment located in the adjacent roof-top shelter
- Becoming more problematic over time

Estimated Cost: \$200,000

Project Start: 2025
