 - Selection/project management/installation/recommendation by the Property Management team
-

MEDICAL EXAMINER'S OFFICE

Project	Total Cost Estimate	2024	2025	2026	2027	2028	2029
Emergency Backup Generator	412,500	412,500	-	-	-	-	-
TOTAL	412,500	412,500	-	-	-	-	-

- The Backup Generator is requested from **both** Property Management and the Medical Examiner as the existing one is 20+years old and nearing its end of life
 - The current generator powers a small portion of our facility: the cooler, freezer, emergency lights, and door security
 - To keep the operations of our department going, the generator needs to power the computers, phone systems, and autopsy suite including the LODOX machine
-

MEDICAL EXAMINER'S OFFICE

- Historically the generator is utilized 4-5 times a year causing the autopsy suite to also shut down; therefore, holding cases and prolonging the release of decedents to funeral homes for the families
- A power outage now would also halt investigators going to death scenes causing law enforcement to extend their time at scenes and an extended delay for family members as all phone systems are digital
- Ongoing maintenance will be provided by Property Management
