

# LOOKING UP MEDICINES OR PHARMACIES

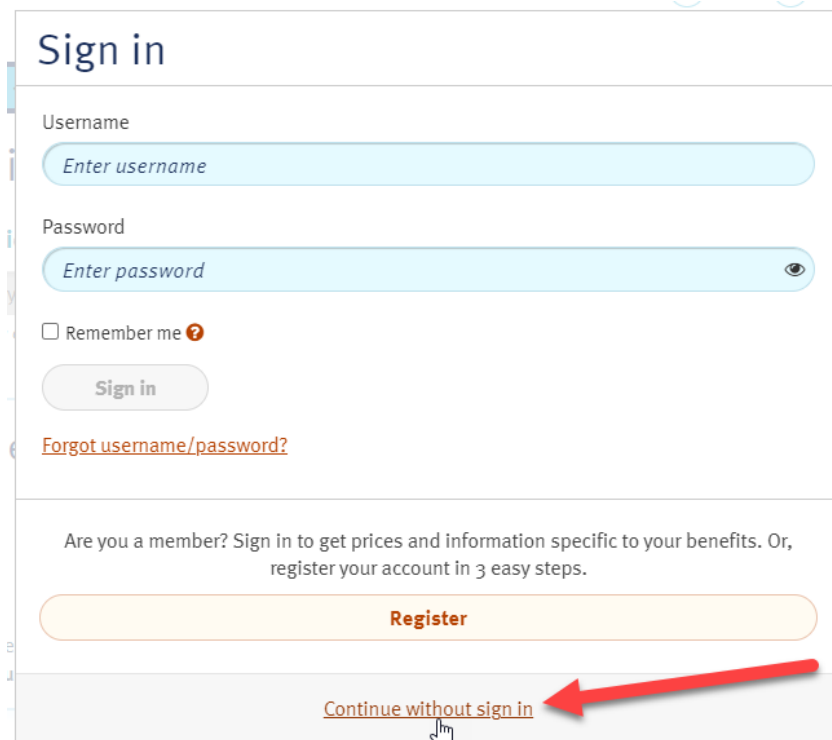

Ramsey County

1. Go to [www.myprime.com](http://www.myprime.com)
2. Click Medicines / Find medicines or Pharmacies from the ribbon menu:

3. As you are searching prior to being a live Blue Cross member, you will see the following dialogue box. Click **Continue without sign in**:

# LOOKING UP MEDICINES OR PHARMACIES

Ramsey County

4. You will then be prompted to answer “What is your health plan or employer?” Select the **BCBS Minnesota** answer. This will open a second question “Are you a Medicare Part D member, shopping for a Medicare plan with prescription drug coverage, or a **Retirement Benefit Enrollee**?” Answer **No** to this question. Then click **Continue**:

5. If you are searching for medications, you will need to select **BCBSMN FlexRx Drug List** and click **Apply**. All plans offered use the FlexRx preferred drug list:

6. Type in the name of the medication you are looking for and then select the match that appears in the drop down menu:

Prices listed are estimates. If you are already a member, [sign in](#) or [register](#) to get prices and in-network pharmacies specific to your benefits.

8. Results will be returned, and will indicate the drug's status with regard to generic vs. brand and whether it is on the preferred drug list so you can cross reference with your enrollment materials to see what the cost of the medication is based on coverage on offered plans. NOTE that per the enrollment materials there is a benefit for Non-Preferred drugs on Ramsey County's plans. Brand name drugs are always listed in ALL CAPS on the site.

No interactions found

## Drug List

Your drug list: BCBSMN FlexRx Drug List

## Coverage information

[Sign in](#) or [register](#) to see coverage information.

### On drug list

This drug is included on your health plan's drug list, or formulary.

### Preferred

Drug classified as preferred on the drug list. Usually lowest copayment.

## Therapeutic alternatives

Most conditions can be treated by more than one medicine. A therapeutic alternative is a chemically similar drug which can resolve some of the same symptoms. It can be the generic version of a brand-name medicine or a different brand-name medicine. It can also save you money. Talk to your doctor to see if a therapeutic equivalent could work for you.
