I am actively engaged in my career pathway.	I have obtained recommended credentials and certifications within my chosen career pathway.	I am engaged or enrolled in a college program or a career training program and am earning credits towards a certificate, diploma or degree.	I have at least three professional networking connections related to my pathway (i.e. mentor, association, supervisor, etc.).	I have significant work/volunteer experience. I know how to use my skills to assist me along my chosen career pathway.
I have identified a career pathway and would like to take the next step to enroll in training/education, or apply for employment within my pathway.	I have more than two credential and/or training certificate completed or in progress or have credentials not in chosen field.	I have researched different post-secondary schools and programs that offer classes aligning with my career pathway.	I am making industry connections through education, work experience, volunteering and/or employment.	I am currently volunteering, in work experience or employed in an area that will assist me along my chosen career pathway.
I have not researched career pathways. I am interested in career pathways and am starting to explore opportunities.	I am currently pursuing or have recently earned a continuing education credential.	I have obtained my GED or HS Diploma and I am interested in continuing my education to advance my Career Pathway.	I need help to learn more about how to network effectively.	I have some work experience, and am interested in gaining more experience and skills through volunteering or employment.
I have never heard of a career pathway.	I am interested in identifying a credential to pursue.	I am currently (or interested in) pursuing my GED or HS Diploma.	I don't know what networking is.	I have minimal or no work experience. I am interested in expanding my work skills and experiences.
