

# **Master Plan Update for Flood Affected Park Infrastructure**

**Vadnais-Snail Lakes Regional Park**

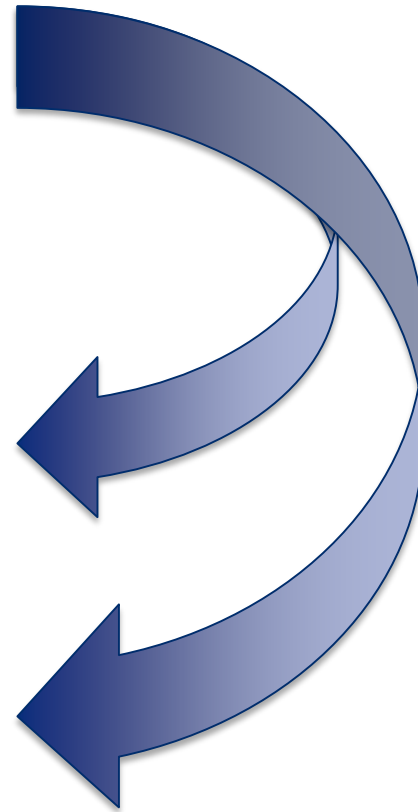

## What is the Project?

- Determine new location for flood impacted park picnic facilities and trails
- Not a complete redesign of the park

## Why are we doing this project?

- Metropolitan Council oversees the regional parks and trails implementing agencies
- Funding will not be available to reconstruct infrastructure without first updating the original master plan.
- To ensure future facilities are resilient to high and low water conditions

## What is the Process and Schedule?

- January 2020 – Begin project public input
- February – Develop Concepts, public review
- March – Preferred Master Plan Concept, public review
- May – October – Plan writing and formal approvals at the city, county, and metropolitan council
- Seek funding for flooded infrastructure replacement

## Tonight's Meeting Format

The Master Plan will address the following areas:

1. Snail Lake Area Picnic Facilities
2. Wetland A Trails
3. Grass Lake Trails

Areas are represented at individuals tables. Please write comments or draw on the maps provided.
