

RICE STREET VISIONING STUDY

Visioning Study Engagement Summary

From June - December 2023, the final design phase of the project began. With the progression of the project a new round of community engagement allowed the project team to be gathering information regarding public opinion on the proposed concepts for the improvements of the Rice Street corridor.

RICE STREET VISIONING STUDY

Open House

This open house was held on June 27, 2023 at the Washington Technology Magnet School Library from 5:00 - 7:00pm. The project team shared the recommended design options for shared use paths, turn lanes and medians, and parking suggestions. The public was given opportunities to share their feedback on the proposed designs and interact with a street scape voting activity to help plan the vision of Rice Street.
