

RIVERVIEW CORRIDOR BIKE AND PEDESTRIAN SURVEY

Community Survey Results for bicyclists and pedestrians crossing the Mississippi River on the Hwy 5 bridge

Survey Overview

The Riverview Corridor Modern Streetcar Project is evaluating concept designs to cross the Mississippi River on the existing Highway 5 bridge.

Reconstruction or replacement of the bridge to accommodate the streetcar will also require replacing the non-ADA compliant bicycle and pedestrian pathway on the bridge.

Survey Overview

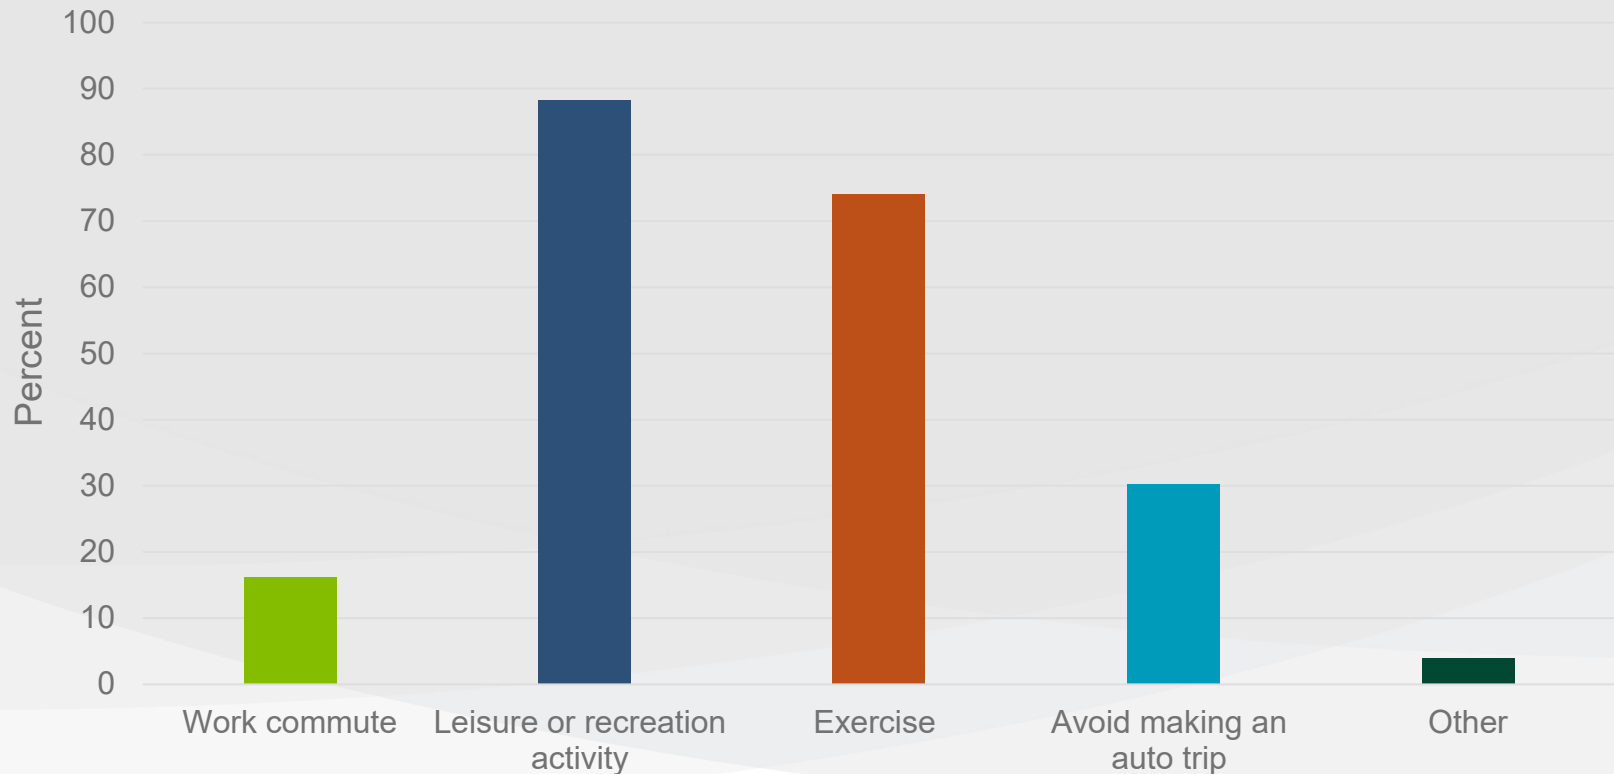

The Riverview project team conducted an online public survey to get feedback from bicyclists and pedestrians about their experience crossing the Mississippi River on the Highway 5 bridge.

The survey results will be used to help choose design features for a new pathway that would be built as part of the Riverview Corridor Modern Streetcar project.

While open to the public from February 11 through March 25, 2022, the survey collected a total of 591 responses with a 97% completion rate.

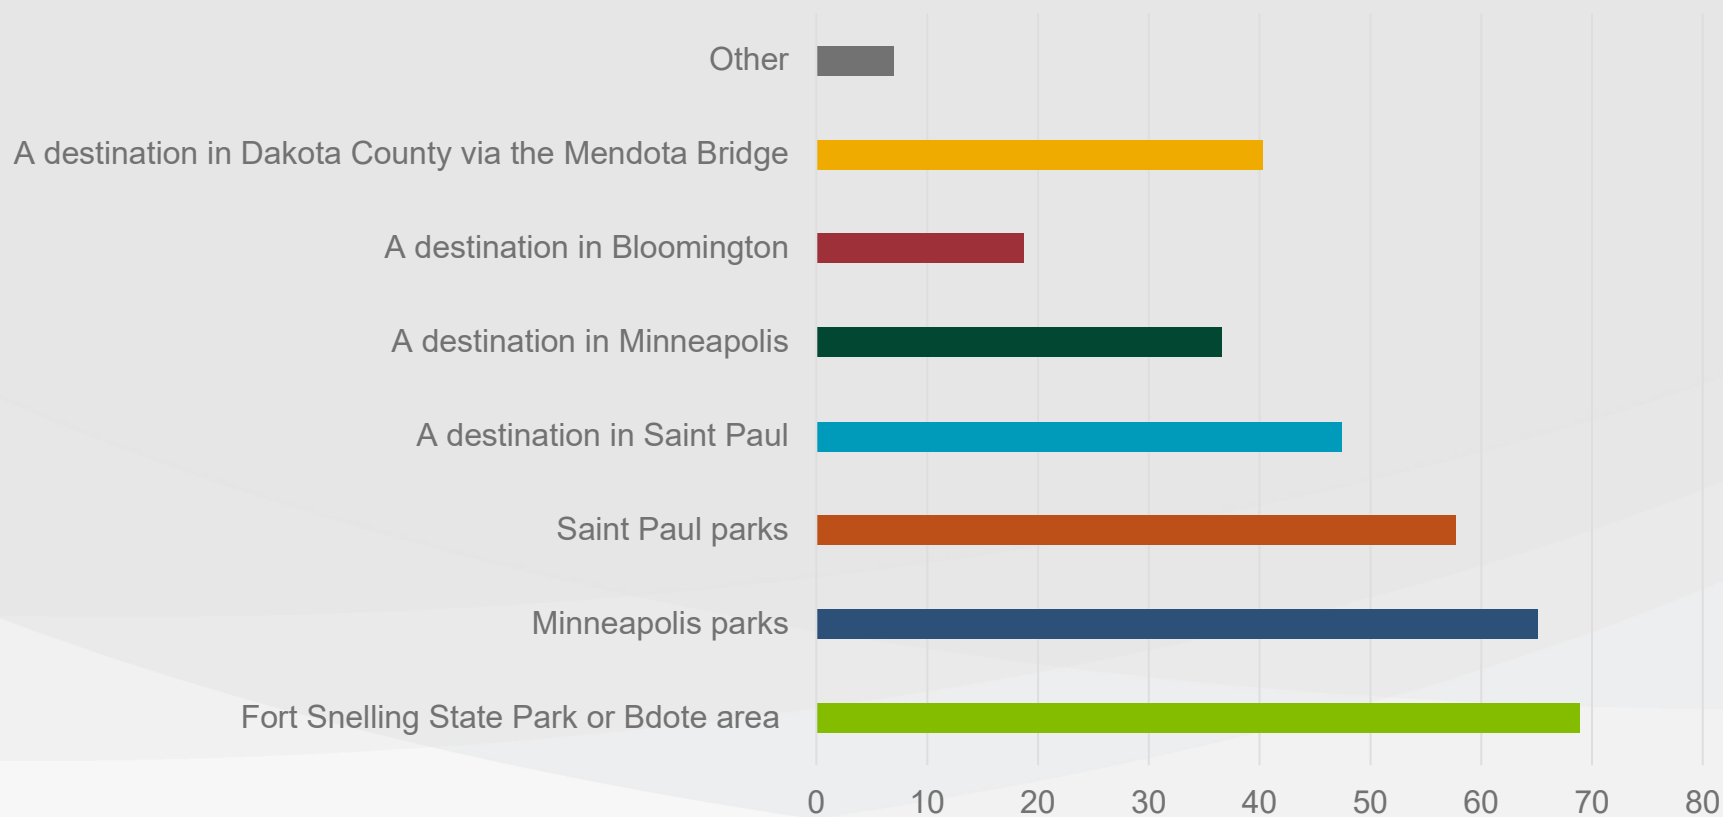

Question 1:

Why do you bike or walk on the Hwy 5 bridge? (select all that apply)

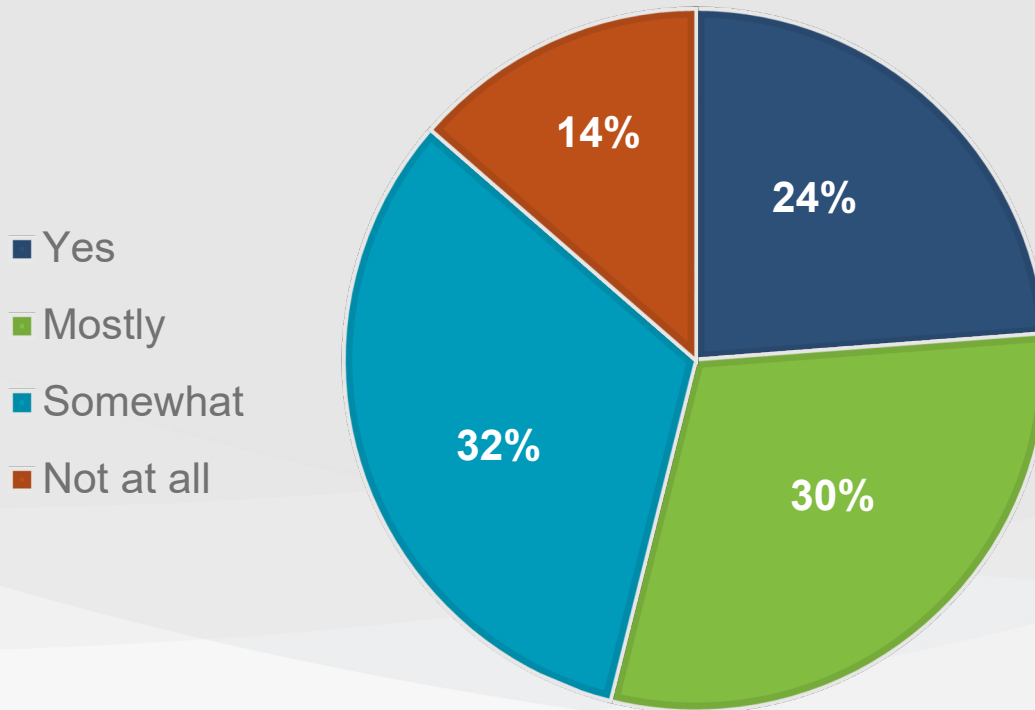

Question 2:

What is/are your typical destination(s)? (select all that apply)

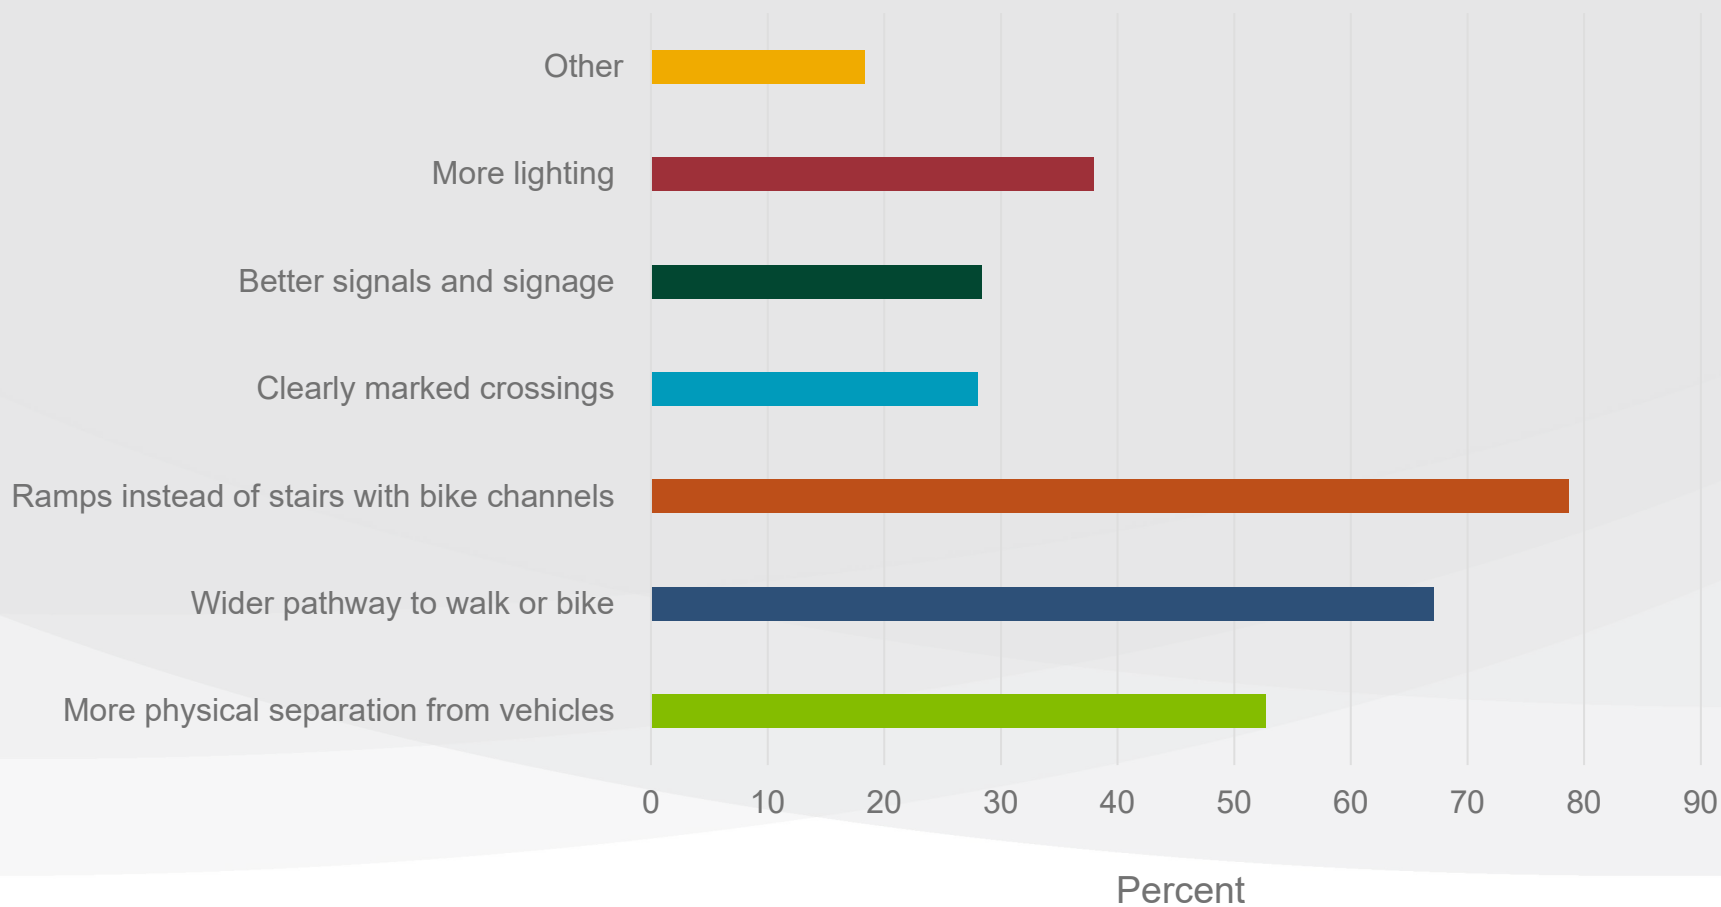

Question 3:

Thinking just about the pathway itself, do you currently feel safe crossing the river on the Hwy 5 bridge?

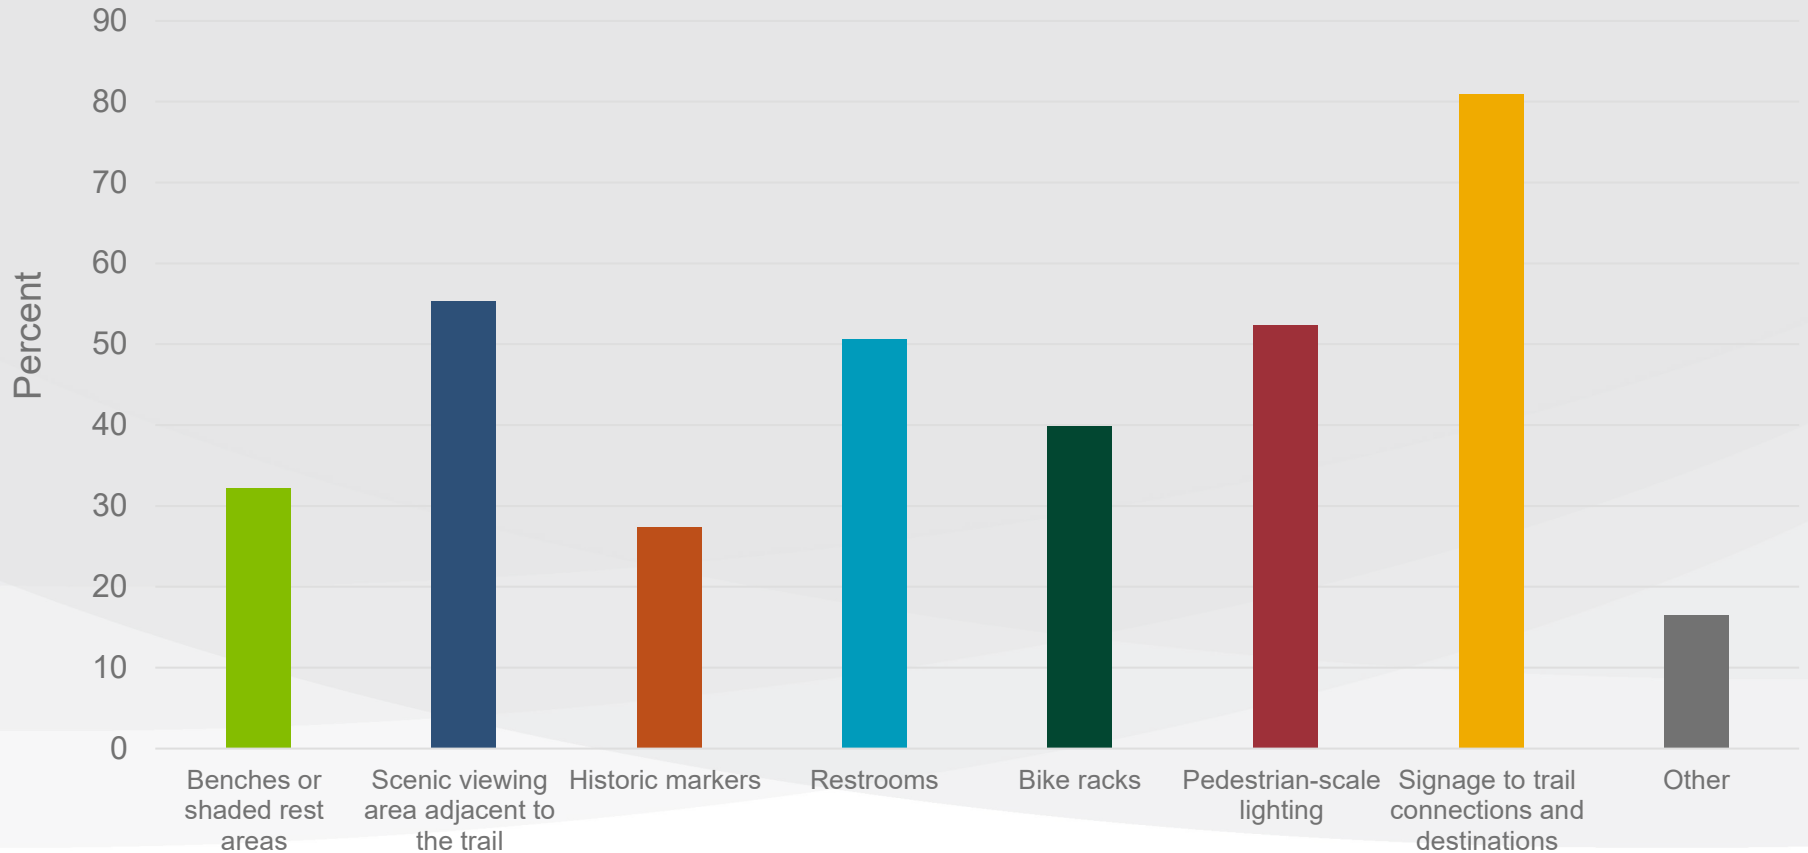

Question 4:

What would make you feel safer on or approaching the Hwy 5 bridge?
(select all that apply)

Question 5:

What amenities are important to you when traveling on foot or by bicycle?
(select all that apply)

Question 6:

Are there other bicycle and pedestrian bridge crossings that the Riverview project team should consider as examples when designing anew crossing on or near Hwy 5 bridge?

Highland Bridge

Sabo Bridge

Mendota Bridge

Franklin Avenue Bridge

Red Wing Bridge

35E bridge over Mississippi River

Lafayette Bridge

I-494 - Wakota bridge

Washington Ave U of M Bridge

I-94 bridge over the St. Croix River

Hastings Bridge

Lake Street Bridge

The High Bridge

Question 7:

What else should be taken into consideration when designing bicycle and pedestrian improvements in this area?

Thank you
