Who are victims?

- DV doesn’t discriminate. Women of all races, nationalities, languages, cultures, economic levels, sexual orientation, physical abilities and religions are equally vulnerable to violence by an intimate.

- 90-95% of domestic violence victims are women.

- On average, more than 3 women are murdered by their husbands or boyfriends in this country every day.

- Approximately 1 in 5 female high school students reports being physically and/or sexually abused by a dating partner.
Domestic Violence is the leading cause of injury to women between the ages of 15-44 in the United States—more than car accidents, muggings and rapes combined.

WHAT IS DOMESTIC VIOLENCE?
Battering is the establishment of control and fear in a relationship through violence and other forms of abuse. The batterer uses acts of violence and a series of behaviors including intimidation, threats, psychological abuse, isolation, etc. to coerce and control the other person. The violence may not happen often, but it remains as a hidden (and constant) terrorizing fact.

(Uniform Crime Reports, Federal Bureau of Investigation, 1990)

It is a process and not a single act

Couples Counseling DOES NOT WORK in couples where there is domestic violence

- When one partner is using violence and coercion to get what they want they will use the information during the counseling session to continue their control.

- Couples counseling can only work when both partners feel free to express their issues, concerns and desires freely. If one partner exerts power and control over the other there is no basis for counseling that is free from fear and intimidation.

- Stops the MFIP 60-month time clock

- If a client is determined to eligible they are also meet the eligibility criteria for Family Stabilization services

- Once a client reveals to you that they are experiencing DV the worker must identify the client as help or assistance to develop an EP for Victims of Family Violence.

- The worker must ensure that the client has access to a person trained in DV.
  - Domestic Violence Specialist
  - Domestic Violence Advocate
Job Counselor Responsibility

- Once a client reveals to you that they are experiencing DV the counselor must refer client to a person trained in DV if they are not already working with a DV Advocate.
- Counselor MUST ensure that client has that access.
- The counselor and the DV Specialist must assist client in developing an EP.
- Once the plan has been approved the Counselor must inform the Financial Worker.
The Financial Worker or Job Counselor should advise the client in what documentation they will need for this waiver.

The county must assist the client if they are having difficulty getting these.

DO NOT require the client to comply with the regular Employment Services activities or ES sanctions while client is obtaining documentation.
All are acceptable but the client only needs for verification for the DV Waiver

- Police, government agency, or court records
- Statement from battered women’s shelter staff person or a sexual assault or domestic violence advocate with knowledge of the circumstances
- Statement from a professional from whom the client has sought assistance about the abuse
- Sworn statement from the participant

A “person trained in domestic violence” is a person who works for an organization designated by the Minnesota Center for Crime Victim Services as providing services to victims of domestic violence, a county staff person who has received similar specialized training or any other person or organization designated by a qualifying organization.
A person trained in domestic violence could also be a county or Employment Services staff person who previously received training as an advocate while working at an organization designated by the Center for Crime Victim Services, or it could be someone from Legal Aid or another agency who has been designated by a qualifying organization. Each county must identify locally trained people in order to ensure access for all MFIP participants.
Person Trained in DV

- For information about the DV agencies in your area contact
  - Minnesota Center for Crime Victim Services
    - 1-888-622-8799
DV Waiver Extensions

- All waiver participants are eligible for an extension.
- The client must verify abuse.
- These clients are considered participants of Family Stabilization Services (FSS) and are REQUIRED to develop an EP for FSS Participants and follow FSS requirements.
The main goal is to ensure the safety of the client and the children.

The job counselor or FSS case manager do have the final approval for the EP.

The EP must be approved before the extension is approved.

The client must comply with the plan to continue to receive the extension.
Meet with the client and a DV Specialist to go over whether the plan is still appropriate and is meeting the safety needs along with the EP

Make changes if needed to the EP
If the DV Specialist believes that the EP is still appropriate and the client continues to not comply, client loses the waiver.

If it is determined that the client is to lose the waiver the financial worker needs to be notified immediately.
You all have scenarios of 5 different client stories. Based on these stories, how would you work with the client?

No one person, program or institution alone can end domestic violence...... but each response creates a ripple.

We don’t always know what the impact of a person’s action may be, but we believe all acts of caring and support will carry forward positive consequences.
